SAMPLING OF SUBJECTS TO BE COVERED

This comprehensive course covers key tax issues for completing complicated individual returns. All topics include coverage of new legislation, revenue rulings and procedures, as well as new case law to help the busy practitioner keep current. Speakers are all practicing preparers who share effective tips and insights to help you get ready for this tax season. Some of the hot topics we cover include resolving ID theft problems, using health care coverage exemptions, reporting in the sharing economy and adjusting for compensation based covered securities. New law includes the Mortgage Relief Act of 2015, the many extenders and permanent features in the PATH Act, and changes in elections and safe harbors in the capitalization regulations.

Full attendance at the seminar will result in the receipt of 16 CPE units in Taxation.
