## **Jennings-TaxSpeaker Technology Virtual Seminar Description:**

Tax professionals call TaxSpeaker's technology course the "best course [they've] ever taken!" Are you ready to see what the excitement is about? We've brought it back again for this upcoming year! Our 2020 Technology course goes way beyond the "what-ifs" and actually covers, illustrates and demonstrates the latest tools available to make your office an extremely efficient profit-machine. The 2020 class is composed of chapters on "What's New"; Security; software, applications and a "Best Practice" hardware/software guide. If you want to know how to run a physical appointment free remote practice, or how to have your employees work from home, this is your class! We have not had a physical in-person tax season appointment in three years, and all Taxspeaker employees worked remotely from home from March 6-May 15, 2020, never missing a beat, providing live and on demand webinars through 4 physical locations, and using all of our phone lines and "live chat" features from employee homes. No seminar company anywhere can provide this actual, real-life experience with 3 actual tax seasons and how-to, and where possible, Ryan Jennings, our IT wizard, will co-present with Bob to answer every question and walk you down the path of success!

Everything we cover is used by the author in his practice, so you know it works! The latest IRS security mandates will be provided for in the in-depth security discussion, whose discussion will combine the tax pro as well as the IT pro.
